

Program Overview and Requirements

Program Overview:

Through the 1Million Project, Sprint and the Sprint Foundation will help close the homework gap by providing free devices and wireless service to schools to connect 1 million low-income high school students (over a period of five years) **who don't have home internet access.**

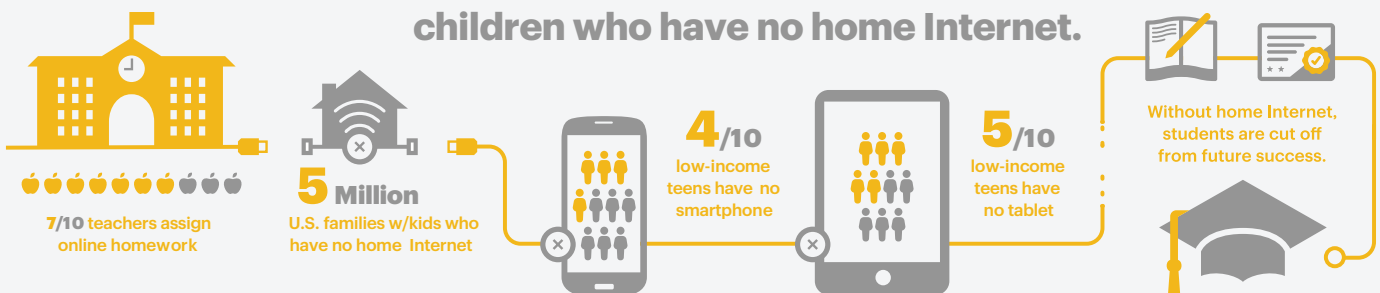

The 1Million Project will help level the playing field so that disadvantaged high school students will have access to the technology they need to succeed in school, participate in the digital world and ultimately reach their full potential.

Eligible High School Students Will Receive:

- 3 GB per month of free high-speed LTE data while on the Sprint Network. Unlimited data is available at 2G speeds if usage exceeds 3 GB in a month
- A free smartphone, tablet, laptop or hotspot device
- Free hotspot capability and unlimited domestic calls/texts while on the Sprint Network for students who receive a smartphone
- Free Children's Internet Protection Act (CIPA) compliant content filter with every device. This filter blocks adult content and malware while on the Sprint Network. Specifically designed for the 1Million Project. This filter is always on and cannot be disabled
- Eligible high school students will receive free Sprint wireless service for up to four years, depending on their grade level when they start the program

There are 5 million U.S. families with school-aged children who have no home Internet.

Schools are encouraged to apply online at

by April 30, 2017.

Program Timeline:

Program Requirements

High schools and school districts must meet the following requirements:

- Commitment to be enrolled in the program throughout its five year duration
- Identify and support a minimum of 1,500 eligible students (300 per year) over the five year program duration who do not have home internet access. Schools will be required to assist with validating this
- Manage parent/guardian consent form process
- Place annual device orders
- Assign a dedicated program manager responsible for overall program success
- Assign a teacher advocate at each school to facilitate program requirements at that location
- Manage device inventory which includes storing devices in a secure location
- Provide program feedback
- Engage locally and nationally as a program champion, communicating program details, collecting and sharing student impacts, etc.

Program Milestones

In order to continue in the program from year-to-year, schools must meet all program requirements as well as the following annual milestones:

- Attend pre-activation webinar which prepares schools for activating and distributing devices to eligible students
- Attend webinar trainings as offered
- Host and manage an Activation Day where schools activate and distribute devices to eligible students
- Meet minimum device activation and usage criteria
- Provide quarterly student eligibility updates
- Complete surveys from Sprint
- Administer surveys to the member students and families
